- Summary: A responsive webpage created from a wireframe and other instructions.
- Role: Sole contributor
- Tools: HTML, CSS, SASS/SCSS, JavaScript, jQuery, and the Google Fonts API

EXPERIENCE

Concentrek

Web Developer

November 2022 - August 2023

Remote Position

Developed Drupal website templates to present to potential clients.

Collaborated on building new websites for clients.

Continually updated clients' websites with press releases, articles, etc.

Code Ninjas

Sensei

January 2020 - Present

Macomb, MI

Taught children ages 6-13 to code video games with a curriculum that utilizes Javascript and educational games such as Code Combat.

Made the learning experience fun and kept the kids engaged and excited to stay in the program.

Did STEM-related activities such as Snap Circuits that when completed sent toy helicopters flying across the room and gave the kids a fundamental understanding of electronics.

EDUCATION

Certificate in Full Stack Web Development

Michigan State University

November 2021 - May 2022

East Lansing, MI
